

Point Calculation & Criteria for Progressive Series

In order to assure that the overall winners at the end of each series of 4 Sabre Progressives (4 held in the fall and 4 in the spring) represents the most outstanding fencer, the point system and criteria are as follows:

- one may enter a maximum of 3 events at any tournament
- one may NOT enter events that have the same start time.
- A minimum of three fencers must be entered for the event to be held.
- To qualify for the final tabulation of points, a fencer must compete in the same events (same age group) in 3 of the 4 tournaments.
- The final tabulation will include the 6 best event scores, in which 3 of the scores come *from their age group event* and the other 3 come from *one age group above their age group* (e.g. 3 best results from Y14 sabre + the 3 best results from Cadet Sabre)
- Prizes are allocated on the basis of points. All fencers who compete in the same event three of the four tournaments will be eligible for an award. Awards are customarily fencing equipment that is chosen from the highest point earner to the last at the end of the last tournament of the series.

Place	Over 6 Competitors	4 to 6 Competitors
1st	25 points	12.5 points
2nd	22	11
3rd	20	10
4th	18	9
5th	16	8
6th	14	7
7th	12	
8th	10	
9th and lower	8
